

C18

Active Noise Cancelling Earphones

The Blackbox™ Difference

Blackbox™ C18 earphones incorporate Phitek® ANR™ Active Noise Rejection™ technology to deliver hi-fidelity sound – providing deep bass, clear vocals and natural highs from a music source.

Blackbox™ C18 earphones are ergonomically designed to fit comfortably within the ear, ensuring the very best in personal listening performance and comfort, especially when the wearer is mobile. The result is a greatly enhanced listening experience, significantly reducing typical background noise such as transit vehicles, trains and aircraft cabins – even the distraction of busy, open plan office environments.

Premium audio products which incorporate Phitek® ANR™ have been awarded 'Best In Class' by leading international journalists writing for *Wired*, *PC Magazine*, *iLounge* and *What Hi-Fi? Sound and Vision*.

Key Features

- Ergonomically-designed earphones provide accurate, extended listening
- World-leading Phitek® ANR™ noise-cancellation for purer sound-from-source
- Comfort-fit replaceable ear buds
- Functional controls via handy medallion
- Powered by a replaceable, single AAA battery (up to 40 hours extended use)
- Multi-format music sources: MP3, [†]iPod™, Cellphones and Smartphones
**check device manufacturer's guidelines for compatibility details*
- Reduces listener stress when viewing in-flight entertainment during long-haul air travel
- Easy-fit adaptors included for home audio, portable audio and aircraft
- Convenient soft carry pouch for transport or storage
